DETAILED ACTION

Response to Arguments

1. Claims 1-17 are pending.
Claims 1, 3, 5-8 and 15-17 have been amended.
Claims 1-17 are examined on the merits.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Withdrawn Rejections

Claim Rejections - 35 USC § 112

3. The rejection of claims 1-17 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is withdrawn in light of Applicants' arguments and amendments to the claims.

Maintained Rejections

Claim Rejections - 35 USC § 102

4. The rejection of claims 1-5 under 35 U.S.C. 102(b) as being anticipated by Plebani et al. (Clinical Biochemistry 29(1): 67-72, February 1996) are maintained.

Applicants argue "Plebani provides information obtained by comparing and discussing the sensitivity and specificity of serum markers," and "...the markers [were] solely used by itself for the detection of bone metastases." According to Applicants "Plebani neither discloses nor suggest the combined use of markers...". Further, Applicants assert "the present invention is characterized by the combined use of a marker that reflects the activity of osteoblasts and a marker that reflects the action of osteoclasts". Applicant's arguments filed December 3, 2001 have been fully considered but they are not persuasive.

As claimed Applicants' method of diagnosing metastasis of malignant tumor to bone using two markers does not provide for a simultaneous use of the markers as suggested by Applicants' arguments when stating the "combined use", nor do the claims as written suggest such. The claimed method plainly provides the use of both markers and is not directed to any specific manner as to how the markers are to be used in the diagnosis. The claims have been given the most reasonable interpretation. For example, the claimed method could be interpreted wherein marker A can be used and marker B would then follow. As the claims are written Plebani continues to anticipate the claims. Applicants are cautioned against the addition of new matter. If amendments to the recited claims are made in order to clarify, Applicants should identify the page and lines to which support for amendments can be found.

Allowable Subject Matter

5. Claims 8-17 are allowed.

6. Claims 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
